ABOUT US

"METALLICO", NON METALLIZZATO. NEVER FLAT, LA SERIE CHE FA LA DIFFERENZA.

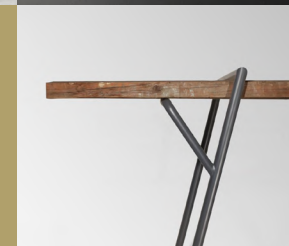

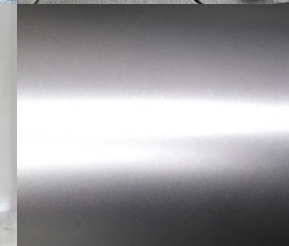

Privo della puntiformità tipica dei prodotti metallizzati, la serie metallica Never Flat si differenzia per l'alta luminosità, una coprenza totale e l'assenza completa di granelli. L'imitazione perfetta delle finiture galvaniche matt per ogni superficie.

Free from those typical points which belong to the metallic products, the metal series Never Flat is characterized from high brightness, total coverage and the complete absence of points. The perfect imitation of the matt galvanic finishings for every surface.

L'alta coprenza e la versatilità in applicazioni sia in verticale che in orizzontale rendono la serie Never Flat, con l'uso degli appositi cicli, idonea per ogni supporto.

The high level of coverage and its versatility both for vertical and for horizontal applications make the series Never Flat an excellent product for every support, through the employment of specific cycles.

NEVER FLAT, L'USO NEL VIVERE QUOTIDIANO

Grazie all'impiego di nuove tecnologie ceramiche, che conferiscono capacità di resistenza uniche, la serie Never Flat viene ormai considerata l'arma vincente per l'industria del mobile.

Thanks to the employment of new ceramic technologies, which are able to give unique characteristics of resistance, the series Never Flat is considered the winning feature for the furniture industry.

NEVER FLAT FOR RETAILS

La raffinatezza delle materie prime, la durabilità del materiale e la ripetibilità assoluta e continua sui cambi dei lotti di produzione, rendono la serie Never Flat il partner ideale per ogni brand del lusso.

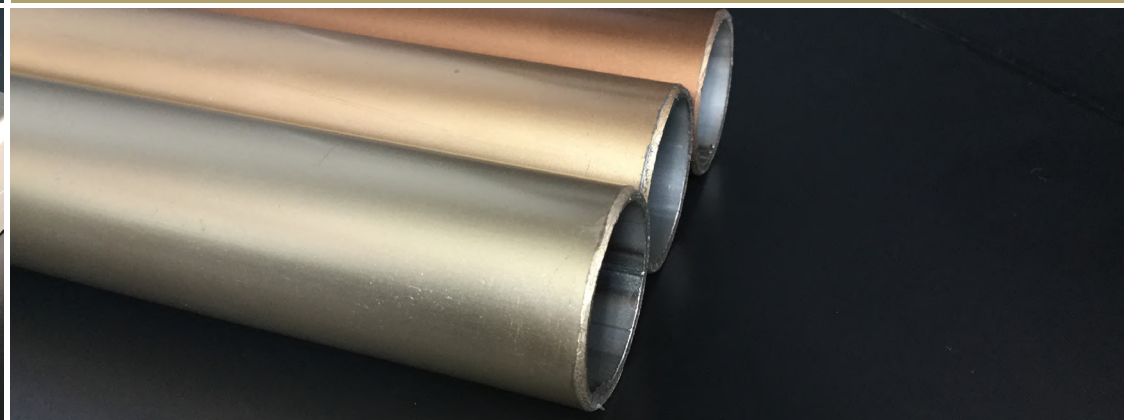

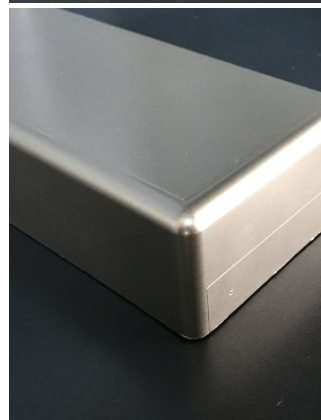

The splendor of the raw materials, the product's durability and the absolute and continuous repeatability during the production phases make the series Never Flat the ideal partner for every luxury brand.

MATERIALS

Ferro, ferro zincato, acciaio AISI 303,304,316, alluminio trafilato, alluminio pressofuso, alluminio in lastre, alluminio anodizzato, ottone, zama, magnesio, ABS, ABS-SAN, PA, PA-6, PP, PMA, PU, PET, polimeri compositi, fibra di vetro, fibra di carbonio, kevlar, legno, MDF, HDF, lamellare, compensato, truciolare, truciolare nobilitato, OSB, faesite, legno naturale.

Iron, zinc iron, steel AISI 303,304,316, drawn aluminum, die-cast aluminum, sheet aluminum, anodized aluminum, brass, zama, magnesium, ABS, ABS-SAN, PA, PA-6, PP, PMA, PU, PET, composite polymers, fiberglass, carbon fiber, kevlar, wood, MDF, HDF, plywood, OSB, phaesite.

Applicabili su supporti in metallo, plastica e legno (attraverso l'utilizzo degli appositi primer di adesione), le finiture Never Flat sono uniche nel loro genere.

Applicable on supports made on metal, plastic and wood (through the employment of specific primers), the finishings Never Flat are unique in their genre.

INDOOR/OUTDOOR

La serie Never Flat non pone limiti di applicazione, permettendo l'impiego dei manufatti rivestiti sia per indoor che per outdoor.

The series Never Flat doesn't have any application limitation, because it allows the employment of the treated workpieces both for interior and for outdoor projects.
