

VELVET EFFECT

Gli effetti del morbido tessuto liquido | The effects of the liquid cloth

VELVET COMMUNICATION

La morbida sensazione dei tessuti da toccare - Feel the cloth's soft sensation

Technical Information

Collection Name:	Velluto/Velvet
Aspect:	Coprente-Covering
Application:	Spruzzo-Spraying
Yield:	8 sqm/kg
Drying:	Air 48 hr/Oven 60°C 1 hr/120°C 30'
Special Effect:	Made To Measure
Cleaning:	Conventional cleaning products
Resistance:	Food and Liquid
Web Site:	www.moltenivernici.com
E-mail:	info@moltenivernici.com
Phone:	+39 031 734181

ABOUT VELVET

La fibra tessile è l'insieme dei prodotti fibrosi che, per la loro struttura, lunghezza, resistenza ed elasticità, hanno la proprietà di unirsi, attraverso la filatura, in fili sottili, tenaci e flessibili che vengono utilizzati nell'industria tessile per la fabbricazione di filati, i quali, a loro volta, mediante lavorazioni vengono trasformati in tessuti (tramite tessitura) o magline jersey). A tanto si è ispirato il CRS Molteni Vernici realizzando le prime finiture a liquido ad effetto tessuto VELVET. Smalti per finiture di pregio, dal caldo effetto morbido e piacevole al tatto.

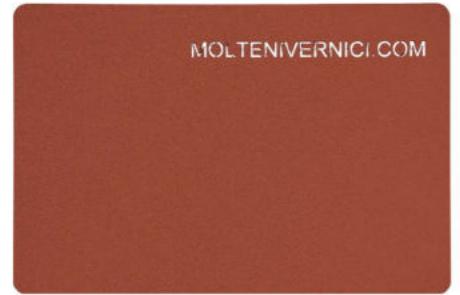

The textile fiber is a synthesis of fibrous products which, for their structure, length, resistance and elasticity, have the property to join themselves through the spinning process into thin, tough and flexible strands, which are used in the textile industry for the manufacturing of yarns, which through specific working processes are transformed into fabrics (by texture) or knits (jersey). The CRS Molteni Vernici has realised the first liquid finishes with a VELVET effect. Varnishes for precious finishes, with a warm and soft effect, pleasant to the touch.

Velvet, the Real Liquid Effect

How To Use Velvet Finishes

Vernici per finiture di pregio ad effetto tessuto morbido.

Aderiscono attraverso l'utilizzo degli appositi primer sulla maggior parte dei supporti metallici (ferro, zama, alluminio, ottone, argento, bronzo), su supporti plastici, MDF e legno, conferendo alla superficie un aspetto tattile caldo e morbido proprio come il tessuto.

Anti-graffio, anti-usura, anti-touch, si autoprotegge senza essere sovraverniciato.

Il prodotto è concepito ad altissima copertura e non si lucida se sottoposto ad abrasione meccanica.

La sua facilità di esecuzione e l'essicazione da basse ad alte temperature lo rendono un prodotto versatile, pensato e sviluppato in esclusiva per tutte quelle Aziende che vogliono realizzare imitazioni del tessuto o della pelle di pesca senza limitazioni di forme o di supporti.

Non ingiallente, adatto sia per interni che per esterni, il prodotto non sbircia se a contatto con i raggi UVA.

Applicabile sia con attrezzature elettrostatiche che pneumatiche.

Disponibile in tutte le colorazioni pastello e in colori naturali quali fibre, tessuti e pietre.

VELVET si pulisce con i tradizionali prodotti di pulizia ad uso domestico.

POSSIBILITA' DI PERSONALIZZAZIONE TINTA E FINITURE.

Varnishes for precious finishes with a soft fabrics effect.

Adhesion through the employment of specific primers on supports made on metal (iron, zama, aluminium, brass, silver, bronze), plastic, MDF and wood, giving the surface a warm and soft tactile aspect as the fabrics.

Anti-scratch, anti-usury, anti-touch, it protects itself without being overpainted.

The product is designed with a very high coverage and does not get polished when subjected to mechanical abrasion.

Its execution's ease and its drying process from low to high temperatures make it a versatile product created and developed in exclusive for all those Brands who want to realise imitations of fabrics or peach skin without too many restrictions of shapes or supports.

Non-yellowing, suitable both for interior and for outdoor employments, the product does not crumble when in contact with UV.

Applicable both with electrostatic and pneumatic equipments.

Available in all pastel colors and in natural colors such as fibers, fabrics and stones.

VELVET can be cleaned with the traditional domestic cleaning products.

POSSIBILITY OF PERSONALIZATION DYES AND FINISHES.
